SIR:

In response to the Office Action dated November 15, 2004, please amend the above-identified application as follows:

AMENDMENTS TO THE SPECIFICATION

Please amend paragraphs [0050] and [0051] as follows:

[0050] Once parties are appropriately introduced and validated, a trusted application can establish access between the Secure POP interface level and internal Secure POP security mechanisms (Block 402). These internal Secure POP security mechanisms ("Secure Core") may then generate a user profile referencing the set of expected accesses.

[0051] The Secure Core can include trusted databases of resource providers available through the ~~generate a user profile referencing the set of expected accesses.~~ Secure POP, as well as pre-established access rules created by resource providers. User and resource profiles can then be combined to create a session profile, which represents a set of accesses that are both allowed and expected for a given user in a given session. Session profile data may then be presented to the resource requester as a list of accessible resources (Block 403). In the preferred embodiment, such a list may mask resource provider identities by allowing the Secure Core to maintain a correspondence list in a protected, trusted application. By masking resource provider identities,

SIR:

Applicant filed an Amendment for the referenced application on April 15, 2005 and inadvertently requested that \$200 be charged to Deposit Account 50-0653. Please see item No. 5 of the enclosed copy of the transmittal letter.

Since the only fee due for this response was a two-month extension of time fee of \$450, and since the deposit account was charged for that amount in Item No. 3, we request a refund for \$200 to Deposit Account 50-0653.

If there are any questions regarding this Request for Refund, please contact Sandra Ferony at (703) 749-1368.

Respectfully submitted,
